Jane Henney, MD
Commissioner of FDA
5600 Fisher Lane
Room 1471
Rockville, MD 20857

2338 AUG 16 P2:09

Dear Dr. Henney:

Please do something regarding the use of antibiotics
- in livestock production. We do not want this action
to continue as it will only cause all of us pain,
trouble and sickness ourselves.

Science and medicine is meant to help us and not to
hurt us. As a person in the healing profession,
please use your influence to combat this evil which is
making multi-national corporations rich.

Thank you very much.

Sincerely yours,

Therese M. Haggerty
